A Merry Christmas!

Most sincerely do we wish that all our readers may fully and rationally enjoy this time honored anniversary It is the sacred holiday of Christendom. In its associations, religious, domestic and festive, it comes close to our hearts, and awakens memories and thoughts that ought to make us better, more generous, more full of love and good works "Glory to God in the highest, and on earth peace, good will towards men," was the angel chime, that beginning on the plains of Palestine, has come down in its welcome tones to us, and shall resound while humanity lives upon the earth, to be blessed and saved by Divine help and mediation This sublime anthem was the Almighty's benediction to our race! May we all accept it, and strive to be worthy of its benefits, and to make the world better, because we have lived in it

WHO IS RESPONSIBLE?—A Peace paper up country says, "the Abolitionists begun the war, and that it will not be ended, till the Democratic party comes into power" Well if it continues till that happens, it is likely to last some time yet, as from present appearances, there are scarcely Democrats enough left in most of the States, to plant for seed, and what are left are so worthless, that it will hardly pay to put them in the ground, they will never *come up*

But as to the cause of the war, will the Peace organs tell us whether the rebellion was not conceived and matured by Democrats—was not inaugurated under a Democratic National Administration—if its headquarters were not in Buchanan's Cabinet—if it had not been in progress four months when Lincoln was inaugurated—if seven States had not seceded before old Buchanan subsided, and if war had not yet begun, by firing upon the *Star of the West*, long before the Republicans came into power! When they answer these questions truthfully, their readers will discover the enormity and insolence of the falsehoods which they glory in repeating.

WHAT DEMOCRACY DEMANDS—One of the Ohio peace organs, in fixing up the standard of Democracy, after election, says: "He who sustains this war upon its present basis is not a Democrat, and if he claims to be such, he should be kicked out of the Democratic organization into the Abolition ranks where he properly belongs."

We admire the frankness of the mandate, and hope it will be obeyed throughout the country. Let the Peace Democrats kick the real and pretended War Democrats—who prate about patriotism and then vote with their party—out of their ranks, and there will be some show of consistency in their position. We have far more respect for the frank rebel who acts as he talks, than for the sneaking, crafty politician, who claims to love his country, and to desire its triumph, but is invariably found, when election day comes, in the ranks of its opponents, because he wants to preserve his Democratic record. Such demagogues are a double curse.

THE PLAIN TRUTH.—The Richmond *Enquirer*, in concluding an article upon the late elections at the North, written under the inspiration that *the grapes had proved to be sour*, thus suggests the course to be pursued by Vallandigham and his friends, in the future "Every sound mind perceives that the sincere advocates of constitutional liberty are out of place elsewhere than in the Southern army" That is a fact such men have been out of the rebel force since the war commenced, only because they expected and hoped by staying at the North, and voting against the Government, thus to work most effectually for treason. As they have utterly failed in that mode of warfare, they ought now to go and help their friends they are powerless at home, and if they will go, they will prove that they are not cowards, as well as traitors

TAXES IN GREENBACKS—In Wasco County the question is before the Circuit Court, whether currency can be used in payment of State taxes. Judges differ upon this issue, but it is difficult for common minds to see why State taxes are any more deserving of payment in coin, than those of the Nation, however, we are ready quietly to submit to what the dignitaries order, reserving only the privilege of thinking for ourselves as to the common sense they display in their judgments

PROGRESS—The world does move, even in the border slave States Less than three years ago President Lincoln was obliged to pass through Baltimore clandestinely, and now he is invited to that city to attend a meeting immense in number and full of enthusiasm, in favor of the abolition of slavery

THE IDAHO MURDERERS—A special term of Court will be held the first week in January, by Judge Parks of Idaho, for the trial of the parties accused of the murder of Magruder and others.

Letter from Auburn

[FROM OUR REGULAR CORRESPONDENT]

AUBURN December 12, 1863

Auburn is not so entirely dead but that it must be heard from once in a while, although it be but to record the growth and prosperity of other and more prosperous localities The winter has been easy with us so far, and no very severe weather has visited us since October, at which time we had a very cold spell indeed since then we have had many flurries of snow which have as often disappeared The roads, however, are in a very bad condition and hard to travel It is very straining on pack animals, and wagons cannot safely cross the Blue mountains

Le Grande has stepped in and become important as a commercial point Its growth, too, is built on a permanent prospect of agricultural wealth which will never fail, and long after these mines are worked out and the placer diggings at Boise have ceased to yield, the wealth and importance of Grand Ronde valley will be felt and appreciated

Le Grande supports a much larger population than Auburn and does a much larger business There are scores of vacant houses here that would be worth a handsome sum there At present Le Grande is used as a supply depot to furnish all this part of the mines, Idaho and Jordan's creek with provisions in the spring The Blue mountains offer a serious obstacle to winter and early spring travel, and vast amounts of goods are being hauled to Le Grande, from which point they can be taken to any point this side during the winter That place now supports quite a number of groceries, has its full share of professional men and does a great trade It hardly had an existence one year ago

I must tell you that it has a great legal reputation, too From the wilds of Marion county there came a country practitioner of the legal profession, who varied the monotony of trade, in which he was engaged, with an occasional appearance as attorney before "Squire Black" Now the Squire left town once on a time and postponed a case in which our worthy friend was to appear until his return, but on the day first set he was punctual to the hour of trial very likely not being informed of the postponement, and learning of the Squire's being away, he proposed that the *Constable* would be the proper man to *try the case*, and that the Squire's partner *being his partner*, would have a right to swear the witnesses Now the partner was considerable of a wag, and the Constable, albeit he is a preacher in good standing, loves a good joke, and the case was then and there duly tried, and a judgment rendered in favor of Marion county, with proper solemnity Since then the practice of law at Le Grande has been very flourishing, several new firms having commenced business there, and our hero from Marion is run nearly to death, not so much with law business as with jokes—legal jokes of course.

Judge Wilson considers Baker county a pretty good sort of a county We have a bar of our own, and can, at considerable trouble, raise a jury but in Umatilla county there was much trouble in getting his first Court organized Jurymen were *hdo*, and bailiffs were *non est inventus*, which means he could not invent any plan to make one, until his eye lit upon a chap who was up for the penitentiary, and he actually had the cruelty to use him as an officer of the Court as long as possible, and then had him tried, convicted and sentenced to the institution at Portland (not Hawthorne & Loryea's)

The question of "feet" is an important one here, and many of us have secured a reasonable amount, not here, but at Jordan creek, and have got over all the excitement of it, by gradually becoming used to the idea of being rich men one of these days But Owyhee is no joke, and Washoe, Reese river, Humboldt and Esmeralda will hardly show richer prospects than Jordan creek Jordan himself, after whom this mining camp is named, has lately passed through Portland, and has doubtless shown the specimens of different ledges he took with him These will of themselves satisfy the world of the richness of Owyhee ledges Many Washoe men have visited them, and are there now, and proclaim the country rich, and the discoveries will be much extended in the spring, when the snow is off

The present discoveries are only a commencement Doubtless there will be rich discoveries in quartz continually made in Baker County, but the richness of South Boise and Owyhee at present attracts all persons there that want to find paying ledges

This upper country will make a noise in the world, long after its placer diggings are done, and Portland will have something to base a permanent greatness upon if it continues to be the commercial point of the Columbia river trade.

The Malheur Indians are still engaged in depredations Not long since some 20 head of horses were stolen from a ranch six miles from Jordan creek, though it is difficult to say if Indians or white men were the guilty parties

A man named John Heckman was murdered at the Malheur, on the Owyhee road some two weeks since He left here with a pack train, but this side of the Malheur he left the train to go on by himself, and was probably killed by the Indians whilst camped alone, he leaves a family at Yreka, California Government *must* do something to make these roads safe to travel, both for life and property

Among the discoveries at Jordan creek they claim to have found a vein of coal, which blazes when ignited by a match and burns freely This vein where discovered is only a few inches in width but may be only a commencement of coal discoveries

LATEST—The *Union's* San Francisco dispatch says:

Maurice Dore sues David W Cheesman, Superintendent of the Branch Mint in this city, to recover the value of 435 ounces of gold dust deposited with the Superintendent October 27th, by James M Romaine Dan Howard and G Clark, the parties known as the Idaho Murderers Who under arrest the depositors indorsed the certificate of deposit to Maurice Dore Superintendent Cheesman refuses Dore's demand for the money Plaintiff asks judgment in $7,158 [illegible], with two per cent per month interest also, for an order requiring the Sheriff to arrest the Superintendent who shall be held in bonds of $10,000 It appears the Superintendent wishes to contest the right of Dore to the money which it has been alleged was stolen from persons murdered by the accused The gold has been coined

It is reported that the United States steamer *Narragansett* has gone to look after a suspicious vessel supposed to be a pirate, which is fitting out at Victoria V I This accords with a statement published in the *Press* last week that the Collector of Puget Sound district had made application for a man of war to watch piratical vessels on the Sound

The arrival of the steamer *Oregon* at San Francisco on the 14th, is reported It is hardly likely that she would be able to leave on the 17th, as that would not allow sufficient time to discharge, load, and make the repairs which the gale probably made necessary

SNOW has all disappeared from the Dalles region, and the weather is represented as very pleasant.

THERE is no other way to cure disease but by first purifying **the whole system so as to create a healthy circulation.**

The first medical men of the age agree with us that no disease of any extent can be cured without using such medicines as will act directly upon the blood Why many medical men have failed to cure chronic diseases is because the medicines used have not been such as will act beneficially on the blood.

The many thousands of bottles which have been used by the public, and the many gallons and barrels supplied to the physicians warrant us in saying that the last two years we have been more successful with our **Scovill's Blood and Liver Syrup in curing hopeless cases of chronic diseases** than have any other remedies in the hands of physicians, or before the public

It is now admitted that no combination known to the profession, acts so promptly upon diseases as our SCOVILL'S BLOOD AND LIVER SYRUP.

A MERRY CHRISTMAS TO ALL —This is the est wish, not alone of the "local" to the ers of a column through which he and may become sort of six mornings a week istances, but the same sentiment, in the set phrase, wells up unbidden and un ed from countless hearts, to be repeated re-echoed by countless tongues to-day. ether the ribbon bedecked and toy-loaded reens before which to day our children s are dancing while their merry hearts beat carry us back to the Druidical days of ancient Celt in his magic rite, to that joy multitude who took branches of palm and strewed in His way while they sung annas to that olive branch—emblem of and promise of safety—which cheered rk ridden family of Noah, or farther back primeval garden in its undefiled gran , ere our first formed mother ate of the dden fruit, our speculative philosophy conjure up no ante-type so impressive to y as that which in youth shed its love s for us. Those who arrayed our first tmas trees —whose eyes swam in tears of y pride at witnessing our undisguised ement at the wealth, and innocent grati for the liberality of good old Santa Claus, his shaggy locks and fur hidden, silvery may have left us alone in the world, gone on to their rewards, or if still spared, be separated from us by the main portion continent The little sisters and brothers Christmas stores glistened on branches our own, are scattered mayhap over wide earth domain, or we may have new family altars, and find clustering d them household gods to whose merri t behooves us to contribute, as did those places we now fill for us. However re placed, let us be as merry as were the ning stars" when they "sang together," contributing to the happiness of all whom ndence has pointed out as our neighbors friends Let us welcome a sanctified an sary, and wish each and all "A merry stmas"

"VOLUNTARY BY THE BAND."—A very neat duly appreciated compliment was paid to B Richardson, Auctioneer, yesterday, at hour for opening his great holyday sale. Mechanics' Brass Band, desirous of show their respect for Mr R , and at the same to render service by gathering a crowd nd the Auction Rooms, appeared in force discoursed excellent music, playing seve patriotic airs, until their objects were ac lished Mr. Richardson, whose wits are caught wool gathering, acknowledged mpliment in a neat and eloquent speech, musical genii smiled and departed, and sale commenced We suspect some of the melody nestled in the jolly auctioneer's and kept escaping through his lips all , for he was very happy to the last, and kept his large auditory, especially those made purchases

HORSE THIEVES CONVICTED —At the cur term of the Circuit Court, held at the W Nuss and Charles Hanel were on ly tried and found guilty of stealing head of horses out of a pack train en ed on the Umatilla river, a few miles the Landing. They were overtaken with animals at Oak Grove, in Wasco county, ing at the same time three mules and two s that were stolen from the same neigh hood and at the same time with the others. is from California, whence he brings no able reputation He had on his person, arrested, about 136 ounces of gold dust, a small amount of coin.

CHRISTMAS EVE —This interesting occasion observed in the usual manner by the va religious bodies Some of the church es were tastefully decorated, and the ser were well attend, impressive and solemn ous trees were brilliantly illuminated bent under their weight of presents, and little ones were in extacies. A private ly parlor into which we glanced on Sec street, where extensive arrangements had made to surprise the only darling little reminded us more of our old Bay State than anything we have seen on the coast. The boys round town commenced their on ments so early that before we went to press of them were unable to tell whether it s December or July.

THEATRICAL —The performance last night under all the circumstances, well pat ronized, and everything passed off smoothly night will be presented "Ireland as it is," "Day after the wedding"

POSTAL NOTICE —We are requested by H. Davis, Esq , Post Master, to announce the Post Office will be closed this morn at 9 o'clock, and remain closed until the rival of the Southern Overland Mail, that attaches of that branch of public service participate, to some small extent, in the hallowed rejoicings of the Christian world.

HERE is no other way to cure seases but by first **purifying he whole system so as to reate a healthy circu ation.**

The first medical men of the age gree with us, that no disease of any xtent can be cured without using ch medicines as will act directly pon the blood Why many medi l men have failed to cure chronic seases is, because the medicines ed have not been such as will act eneficially on the blood.

The many thousands of bottles hich have been used by the public, d the many gallons and barrels plied to the physicians, warrant in saying that the last two years have been more successful with **r Scovill's Blood and iver Syrup in curing opeless cases of chronic iseases** than have any other edies in the hands of physicians, before the public

It is now admitted that no combi tion known to the profession, acts promptly upon diseases as our OVILL'S BLOOD AND LIVER RUP.

The Army of the Potomac.—The last *Union* contains an article highly complimenting the valor and endurance of the brave men who compose this branch of the national force, and by way of explaining the reasons for the repeated mishaps, which have attended its operations, closes as follows

The defects of the finest army on the planet seem to be purely defects of leadership. Wanting an efficient head, it once fought its way to [illegible] within a Parrott gun shot of Richmond, [illegible] determined to run away in the [illegible] of [illegible] victory, [illegible] the famous Seven Days [illegible] which [illegible] so terribly that their [illegible] the [illegible] of a prompt advance and a [illegible]. The valor and endurance displayed at Gettysburg have never been surpassed, yet the full fruit of that [illegible] victory was lost to the great chagrin of the [illegible] by the hesitation of the Commander at Williamsport, and still this splendid army sighed for a general. The authorities at Washington convinced of Meade's incapacity, and the uncertainty of one of his subordinates, have decided to make another change. The alternative is Hooker or Thomas. The restoration of Hooker implies a concession of mistake in removing him upon the eve of the battle of Gettysburg, as well as the repudiation of Halleck's estimate of that General's abilities. Lee's report of his Pennsylvania campaign and Hooker's brilliant services in the West, are supposed to have exercised an influence upon the mind of the President highly favorable to the restoration. Hooker is familiar with Virginia and the Army of the Potomac and has always been one of the military idols of the soldiers in that department. Thomas is chiefly known to the troops as "the hero of Chickamauga." The most obstinate of fighting men, "immovable as a rock," and doubtless an admirable tactician, it is doubtful if this General would give satisfaction in the high command for which he has been proposed. Cool, prudent, deliberate, and invincibly brave in battle, Thomas, as the records of the Army of the Cumberland will show, is slow to enter upon a campaign. His is the genius of a grand defensive rather than the daring energy which surmounts all obstacles in the attack. When Rosecrans began the arduous operations which resulted in the expulsion of Bragg from Tennessee, he started, as he says in his official report, against the judgment of all his corps Commanders, including Thomas. If complaint has been made that Rosecrans was too slow, surely fault should be found with his subordinate who favored still further delay. The Army of the Potomac demands a genius for the offensive—an alert, vigilant, daring and persistent leader, with the power to keep hold of the threads of a great combination. Thomas would be a safe General, but Meade is safe enough for all practical purposes. With Hooker there would undoubtedly be greater risks to be taken, but decisive results are not to be achieved in Virginia, without ventures which "safe" Generals are not disposed to try. We trust, however, that whoever may be appointed to the chief command, there will be no necessity for another change in Virginia during the war

Useful Arts.—In a lecture before an immense auditory, at the Cooper Institute, New York, Wendell Phillips said

Glass is a useful article, and the ancients knew more about it than we do, which fact is shown by the manner in which it was molded and colored. He complimented Edward Everett's description of the telescope, but denied that Galileo was the first person to discover its use. He furnished facts to show that the ancients must have used telescopes, microscopes and opera glasses. The paintings of the past show that we cannot mix paints as well as the ancients could. In manufacturing metals the ancients were our superiors. The orator spoke of a sword so exquisitely made that it could be put in a sheath, coiled up like a snake, without breaking, and he had thought that our Secretary of State was somewhat like that sword, for he could twist without breaking. A negro had tempered steel with an art which died with him, and it was not revived until a hundred years after, so you see if you will let the negro fight he can make his own sword. The ancients, it appears, had the steamboat and the canal, and they had the art of moving immense masses of rock—masses weighing 3,000 tons each. Europe says, "I made the canal." China says, "I made it a thousand years ago." Egypt growls from her granite lips, "Keep quiet, children, I made it five thousand years ago." Stephens says he found railroads (built thousands of years ago) whose grooves were coated with iron. The use of guano is not new. Animal magnetism may be traced to the middle ages. Cold water, as a remedial agent, is not new. Revolving pistols and breech loading cannon are at least three hundred years old. Sherry cobblers are of ancient date, as is the fashion of drinking them through straws. The balloon and the telegraph even belong to the past. Western wit, which consists of exaggeration, such as Lowell delights in, is old. The stereoscope is two hundred years older than Christianity, and the mowing machine was used centuries ago. Why did he speak thus of the wisdom of the ancients? Because art was hidden in the bosom of the aristocracy. In the printing press, the only discovery of modern times, we see hope for the future. Iron and fire cannot save civilization. Sublime and noble principle, guided by wisdom and humanity, can save it, if God intends to save it

The Saddle on the Right Horse.—Doctor Brownson has an article in the October number of his able *Review* in which he argues that while the New York rioters were undoubtedly mainly Irishmen and Catholics, it is untrue and unfair to charge the responsibility for the riots upon Irishmen or Catholics, as such. The most numerous and respectable class of both condemn those wicked disorders, and rightly lay the responsibility for them at the doors of the Copperhead Democracy. Speaking of the outrages committed by rioters, Brownson says

> These things they did not as Catholics or Irishmen, but adherents of the Democratic party as partisans of Horatio Seymour, Fernando Wood, James Brooks, Clement L. Vallandigham and others who, by their incendiary speeches, and by leading articles in the democratic journals, had for months been exciting them against the conscription against the war and had worked them up to uncontrollable fury. The shouts of the mob tell us what was its *Animus*, and these were hurrahs for Gov. Seymour, Fernando Wood, Gen. McClellan and Jeff Davis. A Catholic layman or an Irishman known to be a Republican or a supporter of the Administration was in no less danger from the mob than a Protestant, a native American or even a negro. Col. O'Brien, so savagely murdered, was an Irishman and a Catholic, and one of the best friends of the Irish emigrant in this city—a Catholic and an Irishman himself—escaped the fury of the mob only by keeping himself concealed. On the other hand Catholic Irishmen volunteered to aid the authorities in suppressing the riots and were among the bravest and most efficient in protecting the lives and property of our citizens. No, the mob was literally a Democratic mob, got up at the instigation of the Democratic leaders and led on by men in sympathy with the enemies of the United States—a simply pro slavery mob. Not a Catholic or an Irishman, nor a German nor an American who was not a partisan of the Seymours, the Woods and the Vallandighams, nor even a Democrat not hostile to the war and to negro emancipation, had any part in it, either as instigator or actor

Modern Economy of Time.—The *Scientific American* thus shows how time has been economized by the application of machinery

Cotton—One man can spin more cotton yarn now than four hundred men could have done in the same time in 1769, when Arkwright, the best cotton spinner, took out his first patent

Flour—One man can make as much flour in a day now, as a hundred and fifty could a century ago

Lace—One woman can now make as much lace in a day as a hundred women could a hundred years ago

Sugar—It now requires only as many days to refine sugar as it did months thirty years ago

Looking Glasses—It once required six months to put quicksilver on a glass; now it needs only forty minutes

Engines—The engine of a first rate iron clad frigate will perform as much work in a day as forty two thousand horses

The [illegible] manufactures [illegible] There is probably [illegible] people who have more [illegible] to the world [illegible] than [illegible] devoting the [illegible] labor.

Contraband Milk.—The following is an extract from General Order No. 2 of Lieut. Col. King of the Massachusetts 27th, who is military commandant of Lexington, Ky. It is original and decidedly pointed

Frequent complaints having been made that the milk [illegible] time [illegible] with [illegible] little [illegible] milk.

AYER'S Cathartic Pills

(SUGAR COATED)
ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK. Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.
DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing. Yours with great respect,
ED. W. PREBLE, *Clerk of Steamer Clarion*

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON D. C., 7 Feb.
Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours,
ALONZO BALL, M. D., *Physician of the Marine Hospital*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO. MICH., Nov 15, 1855.
DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here. GEO J GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.
DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.
DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.
JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.
DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.
ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.
PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.
HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.
DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years.
VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects, and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.
